Under the present condition of promotion in the navy, the Secretary stated, it was seldom that an officer got command of a ship until he was nearly 50 years of age, and by that time he had to a certain extent lost confidence in himself. By the transfer some ensigns and lieutenants would immediately have commands, and a means would be provided to get a number of officers duty at sea who cannot now have that service for lack of ships. Not more than one

proposed change should not be made.

As expressed in the report the minority are not able to concur with the majority that the transfer is desirable on any ground of public necessity-either administrative or economic.

An amendment was proposed to the andry civil bill to-day by Senator Hawey appropriating \$15,000 for the erection of a public building at Fort Monroe. The offers of silver to the Treasury Department to-day aggregated 680,000 bunces. The amount purchased was 455,000 ounces at .8850a.8865. Baron Fava, the Italian Minister, is

infortunate in his efforts to renew his official acquaintance with Secretary Blame. He called at the State Department to-day for the second time to see him, but, as on the occasion of his pre-vious visit, Mr. Blaine was not there. The Minister had an interview with Assistant-Secretaries Wharton and Adee, but what took place is not known. It is under-stood that the Minister is charged with the delivery of an important message to the President from the King of Italy, and is trying to arrange for an audience at the White House.

Francis DeCordy died to-day at his residence on Granby street. The City-Hall bell was tolled and the flag on the hall placed at half-mast. He was born in New York and was in the 78th year of his age. He spent the larger part of his life in Norfolk and had been prominent in politics, in business, as a mem-ber of the order of Odd-Fellows, and in other relations of life. His prominencedates away back in the '40's, and it was during the latter part of that de-cade that the "ten-hour' labor-day was established in Norfolk through his efforts. He erected a bell-tower near the present site of the fire department for the purpose of ringing in and out the ten-hour day. He served his time as a ship-joiner in New York, to-gether with William H. Webb, the great ship-builder of that section. He car-ried on the house-carpenters' business in Norfolk before the war, and when the strife between the States came on, being a strong Union man, he left Norfolk and his property here and went North with-out fee or reward. Mr. DeCordy gave valuable assistance to the people of this section at the close of the war in helping them to recover their property, which had been confiscated. THE ACTION OF THE CONVENTION ENDORSED BY THE PEOPLE.

A Sad Blow to the Republicans-Fourth District Delegates and Elector-Model of an Engine in Court.

Fellow-citizens of North Carolina, it is not quite enough to say that the Mecklenburg patriots of 1775 won and wear the unique fame of the precursors of American Independence.

The North Carolina Koh-i-noor blazes from a broader facet with a finer light. The Mecklenburg patriots of 1775 also carried onward the very evangel of Democracy!

A long renown to the Mecklenburg patriots of 1775, the precursors of American independence!

But a deathless renown to self-respecting, self-governing freemen, capable to rend assunder and destroy that unsurviceable body of government which no longer fitly houses and serves the soul in consequence. The result of the presi-dential campaign of this year is regarded as involving vital interests to the people of the South, and party success is placed far above personal preferences and indiof the South, and party success is placed far above personal preferences and individual aspirations. In the face of this fact they cannot afford to divide and whoever the nominee of the Chicago convention may be he will receive the full and united support of the party. The generous recognition accorded the Alliance men in the election of delegates to Chicago satisfies the order, assures their support of the Democratic ticket, and will prove a death-blow to all Thirdparty feeling in Virginia.

If the South, and party success is placed form there they haul supplies to these back counties.

At one of these houses—Messrs, S. H. Marks & Co.—finding that no goods of his kind were needed, he asked to have a check for \$75, signed by his firm, cashed. The bank, to whom the stranger was sent with a message, declined to cash the check unless Messrs. Marks & Co. endorsed it, which they refused to do. The stranger then went to another firm, where he was more successful, getting a check for \$25 cashed.
